- American Girl Crafts Scissors (30-154582)
- American Girl Crafts Glue (30-154650)
- ribbon
- adhesive foam squares

Products available at Michaels. ★

Before you begin: Glue can be messy, so cover your work space with newspaper or scrap paper.

- 1 Choose a patterned sheet from the Sparkly Paper Pad. Cut this sheet in half. Fold one of the halves into the middle. This will be the base of your card.
- 2 Choose another sheet from the Sparkly Paper Pad. Try to select one that is a light color, without a lot of pattern.
- 3 Choose a sticker from the Photo Frame Pillow Stickers. Peel and press the sticker to the light-colored paper. Trim the paper around the edges of the sticker.
- 4 Attach the “thank you” stamp to the See-through Stamp Block. Ink your stamp. Stamp “thank you” on the light-colored paper, inside the sticker frame.
- 5 Pick another patterned sheet from the Sparkly Paper Pad. Turn over the paper so that the white side faces up.
- 6 Set the 3-inch circle template on the white paper. Trace around the circle, and cut out the tracing.

7 Use an adhesive foam square to stick the “thank you” frame onto this circle.

8 Pick another patterned sheet from the Sparkly Paper Pad. Turn over the paper so that the white side faces up.

9 Set the 4-inch circle template on the white paper. Trace around the circle, and cut out the tracing. Create fringe around this larger circle by making small inward cuts around the entire edge.

10 Use an adhesive foam square to stick the small circle onto the large circle.

11 Measure and cut a piece of ribbon to the width of your card. Glue the ribbon across the middle of your card. Center and glue the large circle on top of the ribbon.

12 Give your card extra sparkle by adding Gem Stickers wherever you like.

See circle templates on page 2.
